

GLUTEN SENSITIVE MENU

What is the difference between Gluten Free and Gluten Sensitive? Being a brewery we have a unique set of circumstances, based on the fact that we brew inside the walls of this building. Grain dust has the ability to permeate the smallest areas and can settle just about anywhere, due to this fact we cannot guarantee any items to be completely Gluten Free only Gluten Sensitive. We do however take every precaution when cooking not to cross contaminate any Gluten Sensitive dishes.

Thank you for your understanding! - WBC
